PROFILE

BCA student (6th semester) building full-stack web applications with PHP, Laravel, MySQL and JavaScript. I have independently built and published five projects to GitHub, including an e-commerce platform, a food delivery site and a role-based shop billing system. Comfortable across the stack from database design to responsive front-end interfaces, with working exposure to AWS and Linux. Seeking an internship or entry-level web development role where I can contribute to production projects while continuing to deepen my technical skills.

TECHNICAL SKILLS

- **Languages:** PHP, JavaScript (ES6+), Java
- **Frontend:** HTML5, CSS3, Bootstrap, responsive design
- **Backend & Frameworks:** Laravel (MVC), REST fundamentals
- **Database:** MySQL — schema design, joins, CRUD operations
- **Tools & Platforms:** Git, GitHub, VS Code, XAMPP, Android Studio, AWS (EC2 basics), Linux

PROJECTS

HamroFood — Food Delivery Website | PHP, MySQL, HTML5, CSS3, JavaScript

Repository: github.com/nishant045-Ro/hamrofood

- Built a responsive food delivery site with a hero section, menu cards and an order flow, backed by a MySQL database.
- Implemented full mobile responsiveness using CSS media queries and flexible grid layouts.
- Structured the codebase with semantic HTML and reusable CSS classes to keep styling maintainable.

E-Commerce Platform | PHP, Laravel, MySQL, Bootstrap

Repository: github.com/nishant045-Ro/E-Commerce

- Developed an e-commerce application covering product listings, cart functionality and order handling.
- Applied Laravel's MVC structure to separate routing, business logic and views for a maintainable codebase.

Shop Billing System | PHP, MySQL, HTML5, CSS3, JavaScript

Repository: github.com/nishant045-Ro/Shop-Billing-System

- Built a role-based billing system with separate admin and cashier access levels.
- Implemented product management, bill generation, inventory tracking and sales reporting.

Internship Finder — Android Application | Java, XML, Android Studio

Repository: github.com/nishant045-Ro

- Developed a native Android app helping students discover internship opportunities and company details.
- Built the interface in XML and the application logic in Java, with listings distinguishing paid and unpaid roles.

AWS Cloud Learning | AWS, Linux

Repository: github.com/nishant045-Ro/aws-cloud-learning

- Self-directed study of cloud fundamentals and Linux server administration, documented publicly on GitHub.

EDUCATION

Bachelor of Computer Applications (BCA)

Lumbini ICT Campus — currently in 6th semester

Higher Secondary (Science — Biology / Mathematics)

Gaindakot Namuna College — GPA 2.68 / 4.0

ADDITIONAL

- **Languages:** Nepali (native), English (fluent), Hindi (conversational) | **Strengths:** Self-directed learning, problem solving, teamwork
